Education

Telkom University

Bachelor of Computer Science, GPA:3.67/4.0

Thesis: Implementation of Ansible for Orchestrating Bastion Server in Demilitarized Zone

Purwokerto, Jawa Tengah

February 2025

Technical Skills & Projects

Programming: Python, Kotlin, JavaScript, Bash

Tools: Google Cloud, AWS, Linux, pfSense, Proxmox, VMware Workstation, Ansible, Tenable Nessus, Tenable Security Center, Power BI, Tableau

Certifications: EC-Council Certified Security Specialist v9, AWS Certified Solutions Architect – Associate, AWS Certified SysOps Administrator – Associate, AWS Certified Cloud Practitioner, Google Cloud Certified Professional Cloud Architect, Google Cloud Certified Professional Data Engineer, Google Cloud Certified Associate Cloud Engineer, GitHub Foundations Certification, CompTIA DataSys+ Certified, Microsoft Certified – Power BI Data Analyst Associate

CS Final Project: Implementation of Ansible for Orchestrating Bastion Server in Demilitarized Zone June – Dec 2024

Automated the deployment and configuration of a Bastion server within a DMZ using Ansible. Improved security posture and operational efficiency in a virtualized environment managed via Proxmox. The project demo can be accessed at watcher.zeusr.my.id.

Digital Talent Scholarship: Cloud Automation with Ansible

June – July 2023

Learned infrastructure automation using Ansible for cloud environments.

Digital Talent Scholarship: AWS Cloud Architecting

March – Apr 2023

Learned core AWS services in computing, storage, networking, databases, analytics, and security.

Bangkit Academy 2022: Mobile Development

February – July 2022

Developed Android application “MentalFit” for mental health assessment. Implemented using combination of Android Jetpack, TensorFlow, Firebase.

PT Microsoft Indonesia

August – December 2021

Processed data using Azure Data Services, built AI models with Azure Machine Learning, and created dashboards using Power BI.

Digital Talent Scholarship: Security Specialist

October – December 2021

Learned ethical hacking, network security, and computer forensics fundamentals.

Relevant Experience

PT Bank CIMB Niaga Tbk

Tangerang Selatan, Banten

Vulnerability Assessment Intern

October 2025 – April 2026

- Performed vulnerability scanning across enterprise applications using industry-standard security tools.
- Prepared structured vulnerability reports and shared them with application owners (PIC) for remediation and patching.
- Evaluated and adjusted severity levels for various Common Vulnerabilities and Exposures (CVEs) within the "Reclass Severity" framework to prioritize critical patching and mitigation.
- Developed automated Excel scripts and reusable formulas to streamline the drafting of application emails and the updating of periodic status documents.

- Accelerated documentation workflows by approximately 30% and contributed to strengthening the organization's overall cybersecurity posture.

Dicoding X Telkom Batch 2 - Google Data Analytic Course
Facilitator

Purwokerto, Jawa Tengah
 October 2024 – February 2025

- Facilitated learning for 38 corporate participants.
- Provided guidance and motivation, resulting in a 60% task completion rate.
- Demonstrated strong engagement, leadership, and communication skills.

PT Global Data Inspirasi
Data Visualization Intern

Sleman, Daerah Istimewa Yogyakarta
 June – October 2021

- Visualized COVID-19 data by domicile across Yogyakarta using Tableau.
- Created maps, bar charts, and line graphs for public dashboards.
- Cleaned and transformed raw datasets for effective visualization.

Leadership & Activities
